

	<h2>Having the Vaccine</h2> <h3>Community Service Users</h3>
	<p>You might have to stand in a <b>queue</b> to <b>wait</b> for your appointment</p> <p>This is because there are <b>lots of other people waiting</b> to have their Vaccine too</p>
	<p>The <b>nurse</b> will <b>meet</b> you</p> <p>The nurse will <b>check</b> your <b>name</b> and <b>address</b></p>
	<p>The <b>nurse</b> will tell you <b>where</b> you need to go</p>
	<p>A <b>nurse</b> will <b>ask</b> you some <b>questions</b></p> <p>This is to <b>check</b> you are <b>ok</b> to have the Vaccine</p>
	<p>A nurse will take you into a <b>room</b></p> <p>This is where you will have your <b>Vaccine</b></p> <p>There might be <b>other people</b> in the room having their Vaccine too</p>

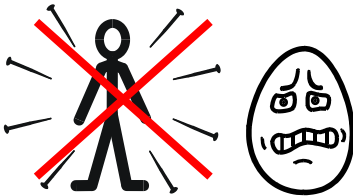

The **nurse** will give you your **Vaccine**

The **Vaccine** is an injection in the **top** of your **arm**

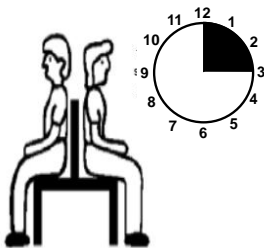

You must **sit** very **still**

The injection does **not hurt**

- some people **do not feel anything**
- some people **feel a little scratch**

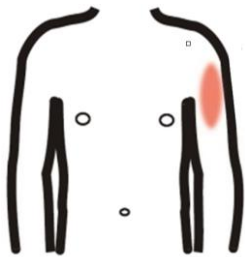

After your Vaccine you will **sit** in a room for **15 minutes**

This is to **check** that you are **ok**

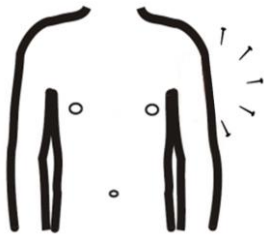

Then you can go **home**

## After your Vaccine you might.....

- Have a **red mark** on your arm **where** you had the **Vaccine**

This will **go** after a **few hours**

- Your **arm** might feel
  - A **bit sore**
  - **Ache**
  - Feel heavy or tired

This will **go** after **1 or 2 days**

- Feel **sick**

This will **go** after a **few hours**

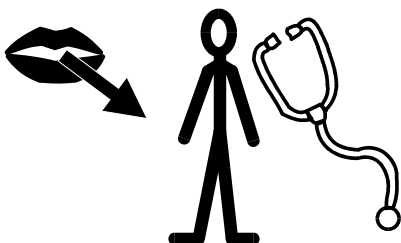

- You might get a **temperature** or feel like you **have got a cold**

This will **go** after **1 or 2 days**

Taking something like **paracetamol** might **help** you **feel a bit better**

If you feel **poorly** or **worried** after your Vaccine you can **talk** to your **doctor**
